

The Raw Materials Manager 30-hours course is dedicated to students (master's, bachelor's and doctoral students) of mining, geology, environmental and other faculties. The course is free of charge and the number of participants is limited.

All the lectures will be organized on-line – e-learning form in English language.

Participation in lectures and seminars is obligatory (min. 80%).

Students will be awarded with certificate labelled by EIT Raw Materials.
